Station 110 and 116

- Medical, RIT, ICS, Rope Rescue Training
- Attended the Cottonwood Heights Emergency Preparedness Meeting
- Assisted a stranded motorist on Highland Drive
- Gave five station tours
- Helped train a group of cub scouts in emergency preparedness

Safety Message

Fire and Fall Prevention Tips:

If you smoke, smoke outside: Use deep, sturdy ashtrays. Wet cigarette butts and ashes before throwing them out or bury them in sand. NEVER smoke in bed.

Give space heaters space: Keep them at least three feet away from combustibles. Shut off and unplug heaters when you leave or when you are going to bed.

Be kitchen wise: Wear tight-fitting clothing or short sleeves when cooking. Use oven mitts to handle hot pans. Never leave cooking unattended. If a pan of food catches fire, slide a lid over it and turn off the burner. Don't cook if you are drowsy from medication.

Stop, Drop and Roll: If your clothes catch on fire, stop (don't run), drop gently to the ground, and cover your face with your hands. Roll over and over to put the fire out. Use cool water to cool the burn and seek medical attention right away.

Safety Message

Fire and Fall Prevention Tips Cont.

Smoke alarms save lives. Make sure you have working smoke alarms installed in every living area in your home. Make sure to test your smoke alarms and change the batteries as needed. If you need help reaching your alarms, please ask someone to assist you.

Plan for a fire: Know two ways out of every room in your home. Make sure you can easily open windows and doors. Plan your escape route around your abilities. Know to call 9-1-1 in case of a fire and if there is a fire, get out of your home and stay out.

Safety Message

Fire and Fall Prevention Tips:

Exercise Regularly: Exercise builds strength and improves your balance and coordination. Ask your doctor about the best physical exercise for you.

Take your time: Get out of chairs slowly. Sit a moment before you get out of your bed. Stand and get your balance before you walk. Be aware of your surroundings.

Clear the way: Keep stairs and walking areas free of electrical cords, shoes, clothing, books, magazines and other clutter.

Look out for yourself: Poor vision will increase your chance of falling, so visit an eye specialist once a year. Improve lighting in your home. Use lights to light the path between your bedroom and your bathroom. Turn on the lights before using the stairs.

Wipe up spills immediately: Use non-slip mats in the bathtub and on shower floors. Have grab bars installed on the wall in the tub and the shower and next to the toilet.

Safety Message

Fire and Fall Prevention Tips Cont:

Be aware of uneven surfaces: Use only throw rugs that have rubber, non-skid backing. Smooth out wrinkles and folds in carpeting.

Tread carefully: Stairways should be well lit from top to bottom. Have easy-to-grip handrails installed along the full length of both sides of the stairs.

Put your best foot forward: Wear sturdy, well-fitted low-heeled shoes with non-slip soles. These are safer than high heels, thick-soled athletic shoes, slippers, or stocking feet.
