1.0 WELCOME/PLEDGE/ACKNOWLEDGEMENTS

1.2 The Pledge of Allegiance was led by Matt Malmberger from Scout Troop 1511.

2.0 CITIZEN COMMENTS

2.1 Sheryl McCallister stated that she previously requested to have the University of Utah Fort Union Boulevard Streetscape, Transit and Redevelopment Study and the BYU Fort Union Corridor Traffic and Development Study posted on the city website and that they have yet to be posted. She expressed disappointment and said the citizens have a right to have access to these important studies.

2.2 Mayor Cullimore asked Dan Metcalf, the city PR Specialist, to be sure these studies do get posted.

2.3 Ms. McCallister also expressed concern that minutes of the city council meetings are not being posted on the city’s website as required by city code.

2.4 City Recorder, Kory Solorio, reported that she believed we are in compliance with code, but agreed to review processes to confirm that fact.

2.5 Ms. McCallister also believes minutes should be more substantive.

2.6 Mayor Cullimore expressed frustration with Terracare, the City’s current Public Works provider, being on the city council work session agenda rather than on the business meeting agenda. She held that any discussions regarding Terracare or meetings involving Terracare should be held in public during the business meeting because of citizen concerns regarding previous snow removal issues. She believes it would be more appropriate for Terracare to provide their reports in a public meeting where all citizens can hear the report. She further asserted that damages caused by Terracare last year were never addressed.

2.6 Mayor Cullimore stated that the City takes the previous snow removal issues with Terracare very seriously and all damages or claims of which the city or Terracare are aware have been addressed. Terracare concerns have been addressed in several different city council meetings, where citizens were welcome to attend. He noted that Twitter updates of meetings are immediately available as are audio recordings.
2.7 Councilman Tyler asked Ms. McCallister if she suffered a financial loss due to last year’s storm and Terracare’s performance.

2.8 Ms. McCallister responded the she had not personally been affected but knows people that were. Damages to which she was referring were during periods when the roads were iced over and people suffered damages to their cars due to hazardous conditions.

2.9 Councilman Peterson stated that philosophically, the Council concurs with Ms. McCallister and are interested in making information readily available. Options are to be considered.

2.10 Mayor Cullimore confirmed that other recommendations by Ms. McCallister, such as broadcasting city council meetings, had been previously considered and rejected as too costly and not a good use of taxpayer dollars. But the council would gladly consider improving transparency and thanked Ms. McCallister for her feedback and suggestions.
