WORK SESSION

Mayor Kelvyn Cullimore called the meeting to order and welcomed those in attendance.

1.0 New City Hall Update.

1.1 Jesse Allen, Valerie Nagasawa, and Scott Henrickson of GSBS Architects provided an update
on the sign out front of the plaza and landscaping around the top of the wall. They specifically
addressed the area between the fence and the current edge of the wall and around the building.

1.2 Mr. Allen provided a visual illustration to review the plaza landscape design. He pointed out
that the sprinklers near the building are on a drip system to prevent splashing on the windows.
He also identified an area where patches of sod were added. When combined with the
hardscape, it would provide an area where a large group of people could gather.

1.3 There was brief discussion on the height and width of trees and shrubs around the building.
Mr. Allen showed the back of the plaza and the doors coming out of the multipurpose space
on both the west and north side exit, onto hardscape areas. It was noted that the tree placement
would not be ideal to shade the area for an evening event. Mr. Allen proposed the addition of
two more trees. It was also suggested that canopies or tents be used.

1.4 Mr. Allen presented the design for the monument signs and stated that one will face east and
another will face south in front of the plaza. The signs are approximately 4 ½’ tall with light
fixtures and constructed of concrete with an aluminum face. It was clarified that the signage
does not specify ‘City Hall.’ There was some discussion regarding changes to the materials
and design for the sign as well. It was determined that GSBS Architects will obtain a cost
estimate for granite.

1.5 It was reported that the Youth City Council received an extra donation and would like to use
the funds to add some sort of memorial to the plaza. Mr. Allen remarked that it is important
for the Council to determine both the criteria and the plan for what does or does not qualify. A few suggestions for this and other memorials included trees, tables, benches, flag poles, and signage in the Demonstration Garden.

1.6 There was discussion of the space between the retaining wall and the fence, next to the neighbors on both the north and west sides of the building. It was reported that the three-foot area will have mulch and the area on the north will have gravel; however, there is a sprinkler connection in this location in the event landscaping is desired at a later date.

1.7 Last, it was reported that windows are currently being installed and the three week ‘Look Ahead’ was emailed out. The steel was expected to be finished later in the week and construction was on schedule.

8.1  a. **Cottonwood Heights Parks and Recreation Meeting – Councilman Bracken.**

8.1.1 Councilman Bracken reported that he checked into the Lacrosse fees previously discussed and found that in the past, some groups reserved the green space at parks and paid the nominal fee but did not use the field(s) the full time. In an effort to bring more control and reason to the process, they now charge an hourly rate of $15/per hour/per field. For games, they charge $3/per player/per season. This seems to have solved the problem as teams are now only booking for the actual time they need. The rates are roughly half the cost of some surrounding areas. He also noted the following:

- Soccer was scheduled to begin in March;
- There were still a few Eagle Scout projects desired to plant trees on the west side of Highland Drive;
- Easter activities were posted on the board out front. The Youth City Council was sorting and organizing items;
- Movies in the Park had been set;
- The Youth City Council would be at the specialty pool March 11 for an activity.

He reported that there was some discussion of the pilot program. He asked the County officials to attend their meeting on March 15, 2016 regarding the Master Plan. He advised the Council that Salt Lake County has funds to hire a consultant later in the year to evaluate the County on how to proceed and engage the public in hearings to develop dog parks. He also recommended that the County change the name of the Cottonwood Regional Park.
