numbers increase by 200 to 300 students, which outpaced all districts in the Salt Lake County
area.

The crime was reported to have occurred in a different vicinity but evidence ended up in Cottonwood Heights. The second clip was a report showing that the murder suspects had been apprehended. It was a Salt Lake City Police case even though the report mentioned the case being in Cottonwood Heights.

2.10 A news report regarding glass recycling indicated that Wasatch Waste and Recycling and Momentum Recycling would be teaming up to make curbside glass pickup more convenient. The cost would be $8.00 per month for the service and participants would receive a special glass recycling bin.

2.11 A Fox News report expounded on dangerous highway conditions the holidays present. The Utah Highway Patrol reported that the next 100 days would be the deadliest of the year. The primary reasons for the deaths were due to children being out of school, families traveling more, increased speeding, underused seatbelts, and driving under the influence.

2.12 Another report discussed a new law designed to reduce assaults on medical professionals. The new law was intended to send a message to the public that assaulting a medical professional was a felony similar to assaulting a police officer.
2.13 A fire in Cottonwood Heights was reported along with the circumstances surrounding it. One of the issues was that the fire hydrant in front of the burning home was broken.
