1.0 WELCOME

1.1 Mayor Mike Peterson called the meeting to order at 7:00 p.m. and welcomed those present.

1.2 The Pledge of Allegiance was led by Scout Troop 706.

2.0 CITIZEN COMMENT

2.1 Eric Kraan expressed concern that City Council Work Sessions are being held at 5:00 p.m.
and commented that it will be difficult for many to attend at that time. It was his understanding
that staff and the Council still attach Accessory Dwelling Unit (ADU) occupancy to the tenant
rather than a structure. He was opposed to the proposed rezone of 6690 Highland Drive due
to the shape of the property and believed it will intrude on the rights of the neighbors. He
reported that he attended the Citizens Advisory Committee for Wasatch Boulevard Meeting
where persistent issues of safety, traffic, and parking relative to increased density and the road
being used to serve three different users was discussed. He asked the Council to create clarity
in terms of their goals for Wasatch Boulevard.

2.2 Brian Ruben identified himself as the developer and an owner of the proposed rezone property
located at 6672 and 6690 Highland Drive. He reported that they have met with the adjacent
property owners and presented the proposed plans. The response received was very positive.
Two items of concern were light pollution and aesthetically pleasing fencing. They are
owner/occupants and are willing to work with the neighbors to create a positive relationship.

2.3 Karen Terrace reported that she is a resident of Cottonwood Heights and expressed concern
with the crosswalk located on 2300 East and Camino. Flags were placed but she believed that
flashing lights are also needed. She has repeatedly witnessed students waiting to cross the
crosswalk which is located on the crest of the hill. She pointed out that vehicles often exceed
the 35-mpg speed limit, which creates an unsafe condition. Ms. Terrace identified an
additional traffic concern at Bengal Boulevard and Highland Drive where she has seen
pedestrians nearly be struck at least once a week. City Manager, John Park, stated that staff
agreed with the need for flashing lights on 2300 East. They are currently conducting a study
in the area and agree that something additional is needed.
2.4 Jin Frederickson expressed gratitude to the Council for their willingness to participate in informal discussions. She spoke with a UDOT representative recently regarding a traffic study at Kings Hill and Wasatch Boulevard who suggested the removal of the stop sign for those turning right. She asked if the Police Department can provide enforcement in that location. She believed the ADU Ordinance was premature due to congestion issues without any mitigation for traffic. Public transportation is diminishing, and she opposed increasing density.

2.5 Nancy Hardy expressed concern with the gravel pit and suggested an open house be held to allow citizens to review the property and design. She suggested a parking structure and public transportation access be added in the area and believed a visitor’s center would also be beneficial.

2.6 Nicki Grace commented that ADUs are poor quality rentals with shared heating, air conditioning, and ventilation. Homes that are converted from single-family to multi-family put stress on the property, sewer, water, garbage, electrical, and landscaping. She was of the opinion that landlords do little maintenance and seldom maintain the exterior. She commented that ADUs are not single-family units and she opposed the proposed Ordinance claim that it will preserve the character of single-family neighborhoods by imposing standards. Market rentals that are legally zoned and well managed have the potential to devalue neighboring properties and can result in an area becoming blighted. If a homeowner requires rental income, they cannot afford to provide proper maintenance. She urged the Council to leave R-1 single-family as R-1 only and strictly enforce Code violations.

2.7 Tim Hallbeck commented on how well City streets are snow plowed. He asked if Bengal Boulevard and Highland Drive can be added to the infrastructure for crossing guards and if plans or community participation are in place to ensure school safety. Police Chief, Robby Russo, confirmed that they are trained in active shooter situations and utilize the schools in scenario training. He stated that they have a solution for every school and have never heard of utilizing citizens in such cases. He noted that they would be opposed to doing so. He remarked that teachers should teach. It the job of the Police Department to create and maintain a safe environment.

3.0 PUBLIC HEARING

3.1.1 City Treasurer, Dave Muir, reported that the proposed budget amendments include a K-9 donation in the amount of $3,500, state forfeiture grants in the amount of $7,000, and the payroll alignment of payroll and benefits to reflect the actual payroll and benefits being received.

3.1.2 Mayor Peterson opened the public hearing. There were no public comments. The public hearing was closed.
4.0 STANDING MONTHLY REPORTS

4.1.1 Mr. Muir presented the Financial Report for the month of January 2018 and stated that the City is $100,000 over budget. The Sales Tax trend line is positive and expected to remain above budget. Energy taxes were slightly below what was projected. Class C Road Funds were lower with 13% reduction year-to-date. Month-to-month trend lines were reviewed. He confirmed that wages and benefits were below budget.

4.2 Unified Fire Report – Assistant Fire Chief, Mike Watson.

4.2.1 Assistant Fire Chief, Mike Watson, presented the Unified Fire Report for the month of January 2018. He reported that Station 110 closed in 7th position with 117 total calls. Station 116 closed in 14th position with 60 total calls. Total medical calls for both stations closed at 150. Station 110 calls closed with 117 total calls, 102 of which were medical and 15 fire. Station 116 calls closed with 60 total calls, 48 of which were medical and 12 fire. Top categories included falls, traffic accidents, falls, and psych and behavior. Top fire categories included alarms, persons locked out/in, and smoke investigations. He reported that there were difficulties in reporting station statistics, which would be available at a later date. The safety message included information regarding the aerial apparatus located at Station 110. The apparatus requires more manpower to operate than a fire engine and is staffed for four positions with an additional two ambulance positions. Chief Watson reported that Station 116 has four positions for the fire engine and although it no longer includes an ambulance, it is their intent to track ambulance transports for their zone.

5.0 ACTION ITEMS

5.1 Consideration of Ordinance 290-A Approving a Rezone of 6672 and 6690 South Highland Drive.

5.1.1 Community Development Director, Brian Berndt, reported that the above ordinance is a request to rezone two pieces of property on Highland Drive. The layout was reviewed. He stated that the General Plan for the area shows the property as Residential Office. The Planning Commission reviewed the rezone and forwarded a positive recommendation of approval with a 4-to-2 vote.

5.1.2 Council Member Mikell hoped to hear additional comments from neighboring property owners.

5.1.3 Mr. Ruben reported that several neighbors were present at the meeting when the original proposal was presented. At the conclusion of that meeting, they spent additional time with residents describing the proposed plan and architectural impact as well as the plan for the property border. The two primary concerns of those in attendance were light pollution and fencing. Mr. Ruben explained that the lighting is intended to be primarily used as a theft deterrent. They will work with the abutting neighbors to design a fencing that they both can agree on. He confirmed that because the proposal is for a medical facility, they will not be operating during evening and weekend hours.
5.1.4 Mr. Park pointed out that there were concerns raised about the proposed building not reflecting the look of a residential office. Mr. Ruben stated that they were able to review design plans with the neighbors and believed they were understood that the proposed would be aesthetically pleasing.

5.1.5 **MOTION:** Council Member Shelton moved to approve Ordinance 290-A. The motion was seconded by Council Member Bracken.
