WORK SESSION

Mayor Peterson called the meeting to order at 5:12 p.m. and welcomed those present.

1.0 Review of Business Meeting Agenda – Mayor Mike Peterson.

The agenda items were reviewed and discussed.

2.0 City Council and Staff Reports.

   a. Road Improvement – Public Works Director Matt Shipp and City Engineer
      Brad Gilson.

Public Works Director, Matt Shipp, reported that staff received the final report on the Payment
Condition Index ("PCI") Study and explained that their recommendation differs from the report, as
written.

City Engineer, Brad Gilson, stated that they have been working to develop a Pavement Management
Plan dealing with how to address road maintenance within the City. GeoStrata Engineering and
J-U-B Engineers were engaged to evaluate current conditions throughout the City and in
conjunction, formed a resident citizens committee to help identify community values and develop a
plan to prioritize road infrastructure. It was the consensus that the PCI would determine how to
address specific roads and was the most fiscally responsible decision. The report included
approximately $1 million in maintenance and an additional $500,000 of capital per year. The history
of the road infrastructure was reviewed.

Mr. Gilson reported that the plan recommended $3.5 million, which includes the entire roadway
infrastructure and was not only related to asphalt. This would allow them to maintain a PCI of 90.
Messrs. Gilson and Shipp believed that the proposed $1.7 million for annual maintenance was sufficient. This would allow them to treat every road once every five years and obtain additional County Active Transportation Network Improvement Program (“CATNIP”) or other funding to make additional improvements. Using this as a benchmark, he emphasized that this is the most realistic and fiscally responsible approach.

b. **Engineering and Wasatch Boulevard Discussion – Public Works Director Matt Shipp and City Engineer Brad Gilson.**

Mr. Gilson reported that the Wasatch Boulevard Master Plan was a lengthy comprehensive process that involved City staff and the Wasatch Front Regional Council. The discussion included reviewing the history of the corridor. Mr. Gilson considered the plan to be a template that helps the City communicate with UDOT and allows input as part of the decision making.

Community and Economic Development Director, Michael Johnson, explained that they want a plan that is visionary, pushes the limits slightly, but remains realistic. Budgeting issues were discussed.

Mayor Peterson recommended including the item on the agenda to get a consensus. Mr. Gilson confirmed that the matter was presented for public comment at the Council level and received public input and discussion. Additional work meeting discussions could be scheduled, if necessary.

Council Member Mikell asked for clarification regarding turn lanes and concerns with the proposed flex lanes. When analyzing traffic with the hotel, she asked who ends up paying for road improvements with regard to accessibility. Mr. Johnson confirmed that from a land use process perspective, the hotel is a conditional use and conditions can be added based on perceived impacts created by the use. A finding would need to be made that the hotel is creating a certain impact and could require the hotel to mitigate the impact. He explained that if there are already existing negative conditions, the applicant cannot be relied on to correct them.

Traffic flow issues were discussed at length.

c. **MOU Children’s Justice Center - Assistant Chief of Police Paul Brenneman.**

Assistant Police Chief, Paul Brenneman, stated that they are required to have a Memorandum of Understanding (“MOU”) and are asking for a Council Resolution in support.

BUSINESS MEETING

1.0 WELCOME/PLEDGE

Mayor Peterson called the meeting to order at 7:00 p.m. and welcomed those present.

The Pledge of Allegiance was led by Council Member Bracken.

2.0 CITIZEN COMMENTS

Lynn Krauss asked for clarification regarding the City’s vision with respect to planning and
development. She stated that several residents have asked for more controlled development with less
height, less density, smaller buildings, and less high-density zoning. She believed that despite the
input, staff continues to recommend approval of requests that push the limit of the City’s ordinances.
Traffic concerns were discussed. She urged the City Council to consider their vision and
communicate that vision to the staff, Planning Commission, and citizens.

Woody Noxon read a letter signed by neighborhood residents requesting that their cul-de-sac be
designated with street signage specifying residential parking only. The parking and traffic along
Racquet Club Drive continue to become more congested and with this request, they would be able to
maintain the R-1 zoning environment of the cul-de-sac. He recommended a current comprehensive
Traffic and Parking Needs Study be completed along with assigning a responsible leader and
including the residents.

Nancy Hardy asked if the City has access to road engineers with experience in various projects that
the City could use and study. She expressed concern with who is providing direction.
Leslie Kolash reported that she has sent letters to the City regarding parking along Prospector Drive and requested a sign be posted stating that it is a neighborhood with no canyon access. She requested that Mine Shaft Road be blocked off during heavy ski days and changed to left hand turn only. She believed that congestion interferes with plowing and emergency access.

3.0 STANDING MONTHLY REPORTS

Finance and Administrative Services Director, Scott Jurges, presented the Monthly Financial Report for the month of December 2018 and stated that sales taxes were trending as expected. The Municipal Energy Tax was slightly under budget and was reflecting growth in this category. Class C Road Funds were running behind and showed a reduction in May through June that was largely due to an increase in electric vehicles. Payroll was slightly ahead of budget and the benefits were under budget. Employee payouts were described. Departmental expenditures were next discussed. Mr. Jurges noted that the General Government line item was on budget, Public Works was slightly under as was Community and Development Services.

3.2 Unified Fire Report – Fire Assistant Chief Mike Watson.

Assistant Fire Chief, Mike Watson, presented the Fire Report for December 2018 and stated that Station 110 closed in the 5th position and Station 116 closed 16th. Station 110 received 155 calls of which 124 were medical and 31 were fire. Station 116 closed with 65 calls of which 52 were medical and 13 were fire. Top medical call categories included falls, traffic accidents, and sick person. Top fire calls included alarms, flooding/hydrant/public assists, house and high-rise fires, natural gas leaks, search and rescue, and police-assisted calls. Station 110 closed with 71 transports, 31 of which were Advanced Life Support (ALS), and 40 Basic Life Support (BLS). Station 116 closed with 29 transports, 21 of which were ALS, and eight BLS. Fire prevention activities were discussed.

Chief Watson presented data on the total calls for 2018. Station 110 closed with 1,390, of which 1,115 were medical and 275 were fire. Station 116 closed with 813 total calls, 604 of which were medical and 209 were fire. A staffing report was included as requested by Council Member Bruce. The safety message dealt with hydrant issues and it was recommended that citizens keep them cleared of snow. Chief Watson reported that the new service delivery model was called one and one, meaning one paramedic and one EMT and will begin February 4, 2018. This service will allow every UFA apparatus to offer Advanced Life Support. He noted that they have 25 recruits who have accepted conditional job offers with a recruit camp scheduled for February 24, 2018.

4.0 ACTION ITEMS

4.1 Consideration of Ordinance 314-A Adopting a General Plan Land Use Map Amendment for Multiple Properties with Frontage on Fort Union Boulevard between 2700 East and Racquet Club Drive.
