### ABLE Training Active Bystandership for Law Enforcement

#### The 10 Standards of ABLE

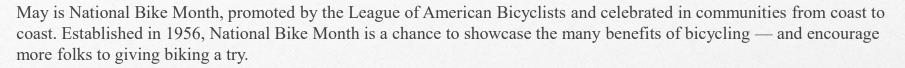

#### ICAUNY ADLE HANNING.

To make ABLE holistic and a catalyst for change, its Board of Advisors developed 10 standards for agency participation:

- Community Support, demonstrated through four letters: two from community organizations, one from the agency leader, and another from the mayor or other government leader
- 2. ABLE Training for all officers, from recruits to command staff, plus annual refresher courses
- 3. Dedicated Coordination by a designated program coordinator who will roll out, promote, and reinforce the program
- 4. Program Awareness through regular internal and external communications promoting the principles and benefits of peer intervention
- Accountability based on a strong, written anti-retaliation policy ensuring that interveners are not punished or ostracized—or if they are, that the agency will fully investigate
- 6. Officer Wellness supported through a program that includes access to counselors or social workers for guidance and support
- 7. Reporting obligations that don't change from pre-ABLE participation
- 8. Measuring Officer Perceptions through pre-implementation and post-implementation surveys of personnel who receive ABLE training
- 9. Follow-Through to ensure department-wide implementation, with the full support of agency leadership
- 10. Paying It Forward by making the agency's ABLE-certified instructors available to help train other agencies accepted into the program

## SAFETY MESSAGE National Bike Month

#### DRIVERS SHARE THE ROAD

For drivers, sharing the road begins with the understanding that **bicyclists** and **motorcyclists** have the same rights as you. They also face unique safety challenges, such as being smaller and less visible. Look for cyclists where vehicles do not appear, like before making a left-hand turn at an intersection. Also, be aware that motorcyclists may have to downshift and weave to avoid bumps and road hazards.

# Share the Road: It's Everyone's Responsibility

#### PREVENT A DEADLY CRASH

As more Americans choose to ride bikes and walk to stay healthy, and as an alternative to driving, pedestrian and cyclist deaths in motor-vehicle-related crashes have increased over the past decade.

**Bicyclists**: There were 846 bicyclists killed in collisions with vehicles in 2019, up from 718 bicyclist deaths in 2008.

Pedestrians: In 2019, 6,205 pedestrians died in traffic crashes, up from 4,414 in 2008.

Motorcyclists: The number of people killed on motorcycles in 2019 was 5,014.

Join us in helping to keep everyone safe on the road. Remember, no one – no driver, cyclist, or pedestrian – has sole rights to the road. It's a shared space where we all have rights and responsibilities.
