SAFETY MESSAGE

Distracted Driving Awareness Month

DISTRACTED DRIVING
Awareness Month

Distracted driving has become a deadly epidemic on our roads. Cell phone use — specifically, texting, talking, and social media use — has become the most common distraction. Other risky actions include adjusting the radio or GPS, applying makeup, eating and drinking. By driving distracted, you're robbing yourself of seconds that you may need to avoid a close call or deadly crash.

Drive Responsibly

In 2021, distracted driving killed 3,522 people. April, which is national Distracted Driving Awareness Month, is a good time to regroup and take responsibility for the choices we make when we're on the road. Follow these safety tips for a safe ride:

- Need to send a text? Pull over and park your car in a safe location.
- Designate your passenger as your "designated texter" to respond to calls or messages.
- Do not scroll through apps while driving. Struggling not to text and drive? Put the cell phone in the trunk, glove box, or back seat of the vehicle until you arrive at your destination.

"Nearly 80% of crashes and 65% of near-crashes involved some form of driver inattention within three seconds before the event." (NHTSA)
