**From the Police:**

**Summary:**

The police department's armorer has proposed to surplus nineteen (19) handguns that are two generations old and have been in service for 10 years. These firearms, which are assets of the city, possess significant trade-in value with a wholesale distributor. The existing weapons have seen extensive use during service and training, with a substantial number of rounds fired. This transaction aligns with our objective to reduce the variety of weapons and calibers currently in use. Addendum "A" contains a detailed list of the weapons and their respective serial numbers.

**Objective:**

The police department plans to utilize the trade-in value along with existing funds to purchase eight (8) current Glock 9mm handguns equipped with Holosun sight systems. The armorer has documented that the Holosun sighting systems on these weapons have led to higher qualification accuracy and faster target acquisition. These improvements are crucial for effective training and risk mitigation.

**Fiscal Considerations:**

There will be no fiscal impact or need for a budget amendment.

**Staff Recommended Action:**

The police department recommends support.

**From Finance / Budget:**

I recommend these firearms be listed for surplus and disposed of in the manner described above as a trade-in.
